engineering	Considering the task or process before you begin
	Simple drawings, explained with labels.
	Review on item, product or process, looking at positives and areas for improvement.

06.02.23  
WALT: create ideas that put need in brief

Monday 27th February  
WALT: create a final design

Not a lot of materials

all day food

all day food

all day food

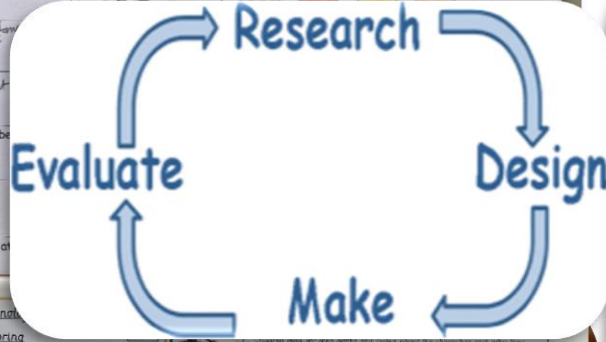

all day food

8.2.23  
WALT: Evaluate their product thinking about strengths and changes they might make

My toy is called:  
Mrs Greedy

What I like about my toy:  
The colour

What I would change next time:  
I will change the shape

Design Techniques  
Year 1 - Spring

Textiles

You will learn...

- Research joining techniques
- Design appealing and purposeful products
- Make using tools to cut, using appropriate joining, and finishing techniques
- Evaluate their product thinking about strengths and changes they might make

Vocabulary you will learn throughout this unit...

Stitch	Definition
stitch	Loop thread that joins two fabrics together.
material	Cloth or fabric
needle	A thin piece of metal with a hole in the end. It goes through fabric to stitch it together.
fastening	Ways of joining things together.
joining	Fastening two materials together

10.1.23  
WALT: Research joining techniques

We tried different methods of joining two pieces of felt, then we discussed which ones we liked and why. We sewed, taped, stapled and glued to see which was the strongest, easiest and neatest.

We will then decide which to use in our designs.

10.1.23  
WALT: Design a Christmas decoration that is appealing

Let the flap

Because it could be a good idea to be a Christmas card

CHRISTMAS

Really good!
